

## Implementation of Insider Trading Prevention Measures

The Company has established the Insider Trading Prevention Procedures, the Procedures for Handling Material Inside Information, and the Code of Ethical Conduct for Directors and Managers. These rules apply to all employees, managers, and directors of the Company, as well as any person who becomes aware of Company information by virtue of an occupational or controlling relationship. They prohibit any conduct that may involve insider trading, and the Company regularly conducts internal education and awareness programs.

The Insider Trading Prevention Procedures expressly prohibit Company insiders from trading securities using material non-public information. The Company's stock trading controls apply from the date on which an insider becomes aware of the Company's financial results and include a prohibition on trading the Company's shares during the 30-day blackout period preceding the announcement of the annual financial report and the 15-day blackout period preceding the announcement of each quarterly financial report. Directors and managers may not purchase or sell the Company's securities in their own name or in the name of another person.

On July 6, 2026, the Company notified all directors by email of the scheduled Board meeting dates for the second half of 2026 and the stock trading blackout periods preceding the announcement of the relevant quarterly financial reports, thereby helping directors avoid inadvertent violations of these requirements.

| Scheduled Board Meeting Date | Financial Report | Blackout Period Start | Blackout Period End | Trading Resumption Date |
